HOW WE HEAR ✓

Photographs, drawings and diagrams in which the mechanism of the ear and the method of transmitting sound waves through it is made clear by comparing the ear to a telephone. The anatomy of the ear is explained by sectional drawings, and the progress of a sound wave through the ear to the brain is followed step by step.

This document is from the Library of Congress
“Motion Picture Copyright Descriptions Collection,
1912-1977”

Collections Summary:

The Motion Picture Copyright Descriptions Collection, Class L and Class M, consists of forms, abstracts, plot summaries, dialogue and continuity scripts, press kits, publicity and other material, submitted for the purpose of enabling descriptive cataloging for motion picture photoplays registered with the United States Copyright Office under Class L and Class M from 1912-1977.
